

# Island Trees High School Student Parking Application

Please complete the following information required to obtain an Island Trees High School parking permit.

Student Name	
Address	
Phone Number	
Cell Phone Number	
Homeroom Teacher	
Car Make, Model, Year	
Color	
License Plate Number	

In compliance with New York State Law, the Island Trees School District requires a copy of the senior's NYS Driver's License, the automobile registration, and an insurance card for all students using the school parking lot. Without copies of these items, no student will be issued a parking permit.

Using the school parking lot is a privilege, not a right. Students who drive to school are responsible for following all rules and regulations as specified in the student handbook. Students who receive repeated discipline referrals, are late to school, or are absent from scheduled classes without permission, could be subject to the loss of this parking privilege. Once parked, student automobiles are not to be moved during the school day except during lunch periods or in the case of emergency. Students are reminded that all textbooks and school-related materials should be removed from vehicles before homeroom. Returning to a vehicle during class time is prohibited. At any time school administration can revoke the parking privilege of students not adhering to these rules and regulations.

The parking lot speed limit is 10 mph, failure to follow this law could result in the loss of parking privileges.

I have read, understand, and agree to the above rules and regulations regarding the parking privileges at Island Trees High School.
