DISTRICT HEALTH SERVICES, Karen M. Stephens, R.N., District Head Nurse  
ISLAND TREES MEMORIAL MIDDLE SCHOOL  
45 WANTAGH AVENUE SOUTH  
LEVITTOWN, NEW YORK 11756

Dear Parent/Guardians:

As part of a required school health examination, a student is weighed and his/her height is measured. These numbers are used to figure out the student's body mass index or 'BMI'. The BMI helps the doctor or nurse know if the student's weight is in a healthy range or is too high or too low. Recent changes to the New York State Education Law require that BMI and weight status group be included as part of the student's school health examination. A sample of school districts will be selected to take part in a survey by the New York State Department of Health. Our school will be selected to be part of this survey every other year. We will be reporting to New York State Department of Health, information about our students' weight status groups. Only summary information is sent. **No names and no information about individual students are sent.** However, you may choose to have your child's information excluded from this survey report.

The information sent to the New York State Department of Health will help health officials develop programs that make it easier for children to be healthier.

If you **DO NOT** wish to have your child's weight status group information included as part of the Health Department's survey this year, please print and sign your name below and return this form to your child's school nurse by December.

Please **do not** include my child's weight status information in the School Survey.
