Clarification regarding Saturday 8/30/08 cleaning at High school ([Link](#))

Please be advised that on Saturday August 30, 2008 athletic equipment from a storage room in the basement of the High school was removed and cleaned. This was not done because of any indications of further high lead levels. It was merely done to be doubly cautious. The company that removed equipment and cleaned it Branch restoration, uses the same cleaning protocol for its work. Again this was not done in response to any indications of high lead levels.

As always if you have any concerns or questions please contact me.

Sincerely,

James Parla

Superintendent of Schools
