

## Using Attachments In Your Curriculum Map

1. From your Map, click **EDIT**.
2. Choose which column you are editing by clicking the title (ex. Add Assessment)
3. The screen you have should look similar to this:

To attach a file click the browse button on the bottom right. You will not have to go and look for your file. When you find the file you are looking for, click it and click open. Next, add a short description for the file. Finally, click Add this Assessment.

When you get back to your Map you will know you added an attachment if you see something like this:

Click the icon or the name to view the attachment.
