

It was a great night at the Meet and Greet!

Now let's do the math!

You can answer one question, two questions, or all of the questions! Bring in your work for a high five and a smile...*show* your work and it will be displayed for a while!

Level 1:

Mrs. Ackerman met 20 boys and 21 girls. How many more girls did she meet than boys?

Level 2:

Mrs. Ackerman met 41 students all together at the *Meet and Greet*. How many more students would need to come for her to meet 100?

Level 3:

Mrs. Ackerman asked each of the 41 students 2 questions on the "get to know you spinner." How many questions did she ask in all?

Name: _____
