About the Community...

Island Trees is a welcoming community with a true hometown feel. A small school atmosphere, individual attention, and community support are just some of the benefits of receiving an education in Island Trees. The school district is located in suburban Nassau County, a short commute to New York City, and minutes away from the white-sand Long Island beaches, Nassau Coliseum concert and sports venue, and world-renowned Bethpage State Park public golf course. The district is comprised of two elementary schools (K-2 & 2-4), one middle school (5-8) and one high school (9-12). Each school feeds directly into the other. As such, when students start in the district, they all move through Kindergarten to 12th grade together. With a total school district enrollment of 2,300 students and 300 dedicated professional and support staff, children are given the individual attention they need in order to succeed. Island Trees graduates 95% of their students year after year. Island Trees School District... small town America in Nassau County.

“Our school community continues to improve learning and to support growth by keeping our eyes on the prize: our students.”
— Beth Roemer, Island Trees Assistant Superintendent
